

Accessing the OLPH Hotspot

Overview

Our Lady of perpetual Help has made improvements to its network so that there is now a Private and a Public network. The Private network (seen as SSID: [OLPHnew](#) on your device) is reserved for church operations and on which church owned computers, printers and storage devices are connected. The Public network (seen as SSID: [OLPHguest](#) on your device) is set up as a hotspot. Provision has been made for parishioners, staff, volunteers and/or visitors to connect to the Internet with their smartphones, tablets, laptops, etc via this Public network.

Purpose

The purpose of this document is to outline the procedures for using the Public [OLPHguest](#) network.

How to Connect

Access to [OLPHguest](#) will be controlled using voucher-based authentication. That means, anyone wishing to use the OLPH Hotspot, i.e. [OLPHguest](#), will need a 10-digit voucher code, which is linked to the computing device. Various types of voucher codes can be made available. "Guests" will usually be provided one that is valid for 365 days. Short term vouchers can also be issued, for instance, to attendees at a meeting. This latter type would become defunct after the meeting has concluded. Vouchers can be revoked at any time.

Once you have received your voucher code and the [OLPHguest](#) network password via email, follow the steps below:

- Show available networks on your device and connect to [OLPHguest](#) using the password provided.
- Open your Internet browser. A popup will open showing the terms of use and a space for inserting your voucher code. Once the 10-digit voucher code including the dash is entered, you will be directed to the <http://olphwinnipeg.ca> website.
- You now have access to the Internet and can begin browsing as you would normally.

How to Obtain Your Voucher Code

To obtain your voucher code, click this [Voucher Code Application Form](#).

Contact

If you are having difficulties and/or would like further information, please contact the church office or Rick Schwab, Telephone (204) 896-6703, Email techservices@olphwinnipeg.ca.
